

Consumer Electronics

Computer equipment, including desktop and laptop computers and related components such as monitors, circuit boards, terminals, CPU's, keyboards, printers, copiers and fax machines. VCRs, CD players, DVD players and cellular phones are also in this category.

Hazards

Lead, cadmium, mercury, copper and lithium.

Where to Recycle:

- All Goodwill stores will take consumer electronics for free from residents, schools and businesses.

www.goodwillindustries.org
- See if your town has a computer dropoff.
- Residents may also bring them to the County Resource Recovery Complex (the County does charge schools and businesses a fee)
