

Burlington County Office of Recycling: Introduction

The Office of Recycling, part of the Burlington County Department of Solid Waste, oversees the operations of The Burlington County Regional Recycling Program, contracted by the Occupational Training Center and sponsored by the Burlington County Board of Chosen Freeholders. This office is responsible for collecting and processing:

- Paper, cardboard, bottles and cans from:
 - households
 - municipal recycling drop offs
 - schools
 - libraries
 - county government offices
 - apartment and condominium complexes

Note: Businesses that contract privately for solid waste services must also contract privately for recycling services.

The recycling office plans and implements programs and projects including consumer electronic recycling, composting, tours of the recycling facilities and other recycling related activities as well as providing guidance for residential, commercial and institutional programs.
